Tools

HTML/HTML5	CSS/Sass
JavaScript/TypeScript	jQuery
React.js	npm/gulp
PHP/Apache	Git/GitHub/GitLab
SQL/MySQL/MariaDB	Terminal/cmd/bash
VS Code/Eclipse/vim	Adobe XD
WordPress	Windows/Linux

Summary

- Experience productively collaborating with account managers, graphic designers, and developers in implementing custom front-end/back-end solutions for clients and end users.
- Frequently styled, built, or enhanced front-end components (e.g. layouts, menus, cards, accordions, sliders) in Sass, JavaScript, jQuery, and React.
- Regular use of MySQL databases; experience writing numerous custom SQL queries and with database administration (e.g. user role modification, imports, exports).
- Experience working with Linux servers (e.g. Apache configuration, tailing logs, modifying ownership/permissions, search and replace operations, updating certificates).
- Developed solutions for numerous WordPress websites of varying size and complexity, including work on custom themes, child themes, shortcodes, and custom post types.
- Significant experience with object-oriented programming in PHP and experience working with software design patterns (e.g. Singleton, Builder, Factory).
- Development experience working with APIs (e.g. Web APIs, WordPress APIs) and JSON data, with a marked ability to organize and assimilate data clearly and purposefully.
- Accustomed to agile workflows (e.g. SCRUM, iterative development, changing requirements), including experience within an environment using CI/CD practices.

Education

- | | |
